B Fiberglass	B Transformer Box Pad							

Three phase transformer box pads are custom designed to fit your needs. Please supply a footprint of the transformer and the transformer weight to us so that we can recommend the correct size and strength box pad. The transformer footprint should show the tank and cabinet dimensions and the preferred cable opening size. As a guideline for the box pad sizes listed, the transformer weight should not exceed 350 pounds per square foot of box pad overall top area (length by width). The transformer cabinet should be within 3 inches of the box pad top edge on all four sides.
