Description:

The Western Power Products Plastic Secondary Pedestals offer durability and corrosion protection at an affordable price. The sizes offered mimic the two most popular sizes in the industry today. Premium High Density Polyethylene (HDPE) is used in a rotational molding process to ensure consistency, especially in the corners and edges where strength and material thickness is important.

Features:

- Made of 100% UV Stabilized Fiberglass, which means scratches will not reduce the UV protection.
- No Maintenance – Complete absence of ferrous metals means these HDPE pedestals are completely rust free, and impervious to attacks from fertilizers, salt, or chemicals.
- Molded ridges throughout the product increase strength.
- Rotational Molding manufacturing process ensures consistent thickness, especially at the corners where it counts.
- Rounded corners reduce chance of injury.
- Top and bottom sections are molded in one piece to eliminate seams that may create weak points for the elements to attack.
- Choices of colors include willow (light) green and munsell (dark) green. Special colors are also available upon request.
- Aluminum casting, with stainless steel pentabolt and pivot locking mechanism, offers a solid locking device..
- Fire retardant material means these are safe.

Polymer Secondary Pedestals

Ordering Information:

| Dimensions (inches) | | | | | | | | | |
|---------------------|--------------------|--------|----|----|----|--------|--------|-------|----|
| Part Number | Old Catalog Number | A | B | C | D | E | F | G | WT |
| SP101530WD | SPP-140-DF3A | 14-1/2 | 10 | 12 | 18 | 19-1/2 | 14-1/2 | 2-1/4 | 11 |
| SP101530MD | SPP-140-MG-DF3A | 14-1/2 | 10 | 12 | 18 | 19-1/2 | 14-1/2 | 2-1/4 | 11 |
| SP101536WD | SPP-145-DF3A | 14-1/2 | 10 | 18 | 18 | 20-1/2 | 15-1/2 | 2-1/4 | 13 |
| SP101536MD | SPP-145-MG-DF3A | 14-1/2 | 10 | 18 | 18 | 20-1/2 | 15-1/2 | 2-1/4 | 13 |
